## FLOODPLAIN DEVELOPMENT PERMIT

ISSUED TO: Flywater LLC

ADDRESS: 36 Meadow Lane

PROJECT ADDRESS: End of Brophy Way

Map ID: 34-1W-28

TAX LOT: 400

BFE: 1363.0 ft NGVD

LFE: 1363.0 ft NVGD

---

### Project Description:

Development of a private road in the floodplain with fill for roadway.

---

### Special Conditions:

Prior to construction of the road the following three conditions will be met:

1. Applicant should contact DSL and verify, with written verification to the City of Shady Cove, that no special permit is required from DSL for filling, particularly the drainage swale. DSL says a permit is required when filling "...some intermittent streams..." and the drainage swale along the road alignment may qualify in their view as an intermittent stream.
2. Applicant shall have their engineer verify filling will not raise BFE more than 1.0 feet at any given point. The engineer will provide verification to the City of Shady Cove.
3. Applicant will provide design calculations for the culver at the drainage swale crossing to the City of Shady Cove.
4. If existing conditions prohibit the strict adherence to these conditions, or if there is a change to the elevation drawings or road location, you must contact the Shady Cove Floodplain Manager for approval before proceeding.

**ISSUED BY:** Rick Swanson, PE

**ISSUE DATE:** 9-08-2009

This permit expires 180 days from the issue date

Rick Swanson, PE, City of Shady Cove
